DETAILED ACTION*Allowable Subject Matter*

1. Claims 1-6 are allowed.

2. The following is an examiner's statement of reasons for allowance:

Applicant has amended independent claims 1-3 by adding limitations directed to a "final control value" that is based on the previously recited basic control data and additional control data. This additional limitation finds support at paragraphs [0035-0036] of the applicant's specification (these paragraph numbers refer to the PG-Pub). These two paragraphs describe Figure 4, which is stated in the specification as a "diagram which shows a multiplexing device which forms part of the MPEG-4 video filtering arrangement." This multiplexing device is shown conceptually in Figure 2, which is described in the specification as "a diagram which shows an MPEG-4 video filtering arrangement."

Previously, the independent claims had only recited features described in Figure 1. But with the addition of the newly-added "final control value" limitations, applicant is now describing aspects of Figure 4, which further describe aspects of Figure 2. Both Figures 2 and 4 are specifically drawn to the MPEG-4 filtering arrangement. The examiner therefore concludes that these limitations are sufficiently described in the specification (because paragraph 41, for instance, describes how Figures 2 and 4 work in conjunction with Figure 1), and that the cited prior art does not teach these specific limitations—which are *necessarily* performed in the MPEG-4 environment (Indeed, these limitations *have* to be performed in the MPEG-4 environment for them to be supported by the specification). Keeping all of this in mind, the cited prior art does not teach these limitations in such an environment, and the claims are therefore allowable.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick L. Edwards whose telephone number is (571) 272-7390. The examiner can normally be reached on 8:30am - 5:00pm M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bhavesh Mehta can be reached on (571) 272-7453. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
